I. INTRODUCTION

A. Purpose and Intent.

The Districts are independent units of local government, separate and distinct from the Town, and, except as may otherwise be provided for by State or local law or this Service Plan, their activities are subject to review by the Town only insofar as they may deviate in a material matter from the requirements of the Service Plan, Chapter 10.11 of the Town Code, or the Intergovernmental Agreement. It is intended that the Districts will provide a part or all of the Public Improvements for the use and benefit of all anticipated inhabitants and taxpayers of the Districts. The primary purpose of the Districts will be to finance the construction of these Public Improvements.

The Districts are not being created to provide ongoing operations and maintenance services.

B. Need for the Districts.

There are currently no other governmental entities, including the Town, located in the immediate vicinity of the Districts that consider it desirable, feasible or practical to undertake the planning, design, acquisition, construction, installation, relocation, redevelopment, and financing of the Public Improvements needed for the Project. Formation of the Districts is therefore necessary in order for the Public Improvements required for the Project to be provided in the most economic manner possible.

C. Objective of the Town Regarding Districts' Service Plan.

The Town's objective in approving the Service Plan for the Districts is to authorize the Districts to provide for the planning, design, acquisition, construction, installation, relocation, redevelopment and financing of the Public Improvements from the proceeds of Debt to be issued by the Districts. All Debt is expected to be repaid by limited taxes imposed and collected for no longer than the Maximum Debt Mill Levy Imposition Term for residential properties and at a tax mill levy no higher than the Residential Maximum Debt Mill Levy for residential properties and the Commercial Maximum Debt Mill Levy for commercial properties. Debt which is issued within these parameters (as further described in the Financial Plan) will insulate property owners from excessive tax burdens to support the servicing of the Debt and will result in a timely and reasonable discharge of the Debt.

This Service Plan is intended to establish a limited purpose for the Districts and explicit financial constraints that are not to be violated under any circumstances. The primary purpose of the Districts is to provide for the Public Improvements associated with the Project, including those regional improvements necessitated by the Project. The Districts are not being created to provide ongoing operations and maintenance services, and such activities may be allowed only as may be specifically provided for in the Intergovernmental Agreement.

It is the intent of the Districts to dissolve upon payment or defeasance of all Debt incurred or upon a court determination that adequate provision has been made for the payment of all Debt, and if any District has authorized operating functions under an intergovernmental

agreement with the Town, to retain only the power necessary to impose and collect taxes or fees to pay for these costs.

It is a requirement of this Service Plan that all property classified as “residential” shall be located in a Residential District, and that all property classified as “commercial” shall be located within the boundaries of the Commercial District. For purposes of this distinction “commercial property” shall mean all property other than “residential real property” as that term is defined in Article X, Section 3(1)(b) of the Colorado Constitution. There are two goals of this distinction: (1) to have similarly situated properties governed by common interests, and (2) to apply a lower maximum tax burden on residential owners. As such, no commercial property shall be located in a Residential District, and no residential property shall be located in a Commercial District. The foregoing shall not prohibit the Residential and Commercial Districts from sharing the costs of Public Improvements in compliance with the provisions of this Service Plan and applicable law nor shall it prohibit a coordinated financing through the Residential District subject to all mill levy and other limitations set forth herein for the Residential and Commercial District, respectively.

The Districts shall be authorized to finance the Public Improvements that can be funded from Debt to be repaid from tax revenues collected from a mill levy which shall not exceed: (1) the Commercial Maximum Debt Mill Levy on commercial properties; or (2) the Residential Maximum Debt Mill Levy and the Maximum Debt Mill Levy Imposition Term on residential properties. It is the intent of this Service Plan to assure to the extent possible that no commercial or residential property bear an economic burden that is greater in amount than that associated with the Commercial Maximum Debt Mill Levy or the Residential Maximum Debt Mill Levy, as applicable, and that no property developed for a residential use bear an economic burden that is longer in duration than that associated with the Maximum Debt Mill Levy Imposition Term in duration even under bankruptcy or other unusual situations. Generally, the cost of Public Improvements that cannot be funded within these parameters and the financing capacity of the Districts are not costs to be paid by the Districts. Costs of required Public Improvements that cannot be financed by the District are expected to be financed by the developer of the Project.

III. BOUNDARIES

The total areas of the Districts Boundaries includes approximately 53 acres, including approximately 43.2 acres within District No. 1 and 9.3 acres within District No. 2. A legal description of the District Boundaries is attached hereto as **Exhibit A**. A map of the District Boundaries is attached hereto as **Exhibit C-1**, Proof of Ownership and consents of the owners to organization of the District for all properties within the District Boundaries is attached hereto as **Exhibit C-2**. A vicinity map is attached hereto as **Exhibit B**.

IV. PROPOSED LAND USE/POPULATION PROJECTIONS/ASSESSED VALUATION

The Service Area consists of approximately 53 acres of residential and commercial land. The current assessed valuation of the Service Area is assumed to be \$129,130 for purposes of this Service Plan and, at build out, is expected to be sufficient to reasonably discharge the Debt under the Financial Plan. The residential population of the District at build-out is estimated to be approximately 210 persons. The non-residential density of the District at build-out is estimated to be approximately 59,000 square feet.

Approval of this Service Plan by the Town does not imply approval of the development of a specific area within the Districts, nor does it imply approval of the number of residential units or the total site/floor area of commercial or industrial buildings which may be identified in this Service Plan or any of the exhibits attached thereto. The permitted level of development within the Project is as contained within an Approved Development Plan.

Approval of this Service Plan by the Town in no way releases or relieves the developer of the Project, or the landowner or any subdivider of the Project property, or any of their respective successors or assigns, of obligations to construct public improvements for the Project or of obligations to provide to the Town such financial guarantees as may be required by the Town to ensure the completion of the Public Improvements, or of any other obligations to the Town under the Town Code or any applicable annexation agreement, subdivision agreement, or other agreements affecting the Project property or development thereof.

V. DESCRIPTION OF PROPOSED POWERS, IMPROVEMENTS AND SERVICES

A. Powers of the Districts and Service Plan Amendment.

The Districts shall have the power and authority to provide the Public Improvements within and without the boundaries of the Districts as such power and authority is described in the Special District Act, and other applicable statutes, common law and the Constitution, subject to the limitations set forth in this Service Plan and the Intergovernmental Agreement.

1. Operations and Maintenance Limitation. The purpose of the Districts is to plan for, design, acquire, construct, install, relocate, redevelop and finance the Public Improvements. The Districts shall dedicate the Public Improvements to the Town or other appropriate jurisdiction or owners association in a manner consistent with the Approved Development Plan, other rules and regulations of the Town, and applicable provisions of the Town Code, all as directed by the Town. The Districts shall not own fee title to any real property. For these Districts, no operation or maintenance functions and no separate mill levy therefor are authorized by this Service Plan. The Residential District shall impose no mill levy other than the permitted Residential Maximum Debt Mill Levy, and the Commercial District shall impose no mill levy other than the permitted Commercial Maximum Debt Mill Levy for the discharge of debt and administrative functions.

2. Fire Protection Limitation. The Districts shall not be authorized to plan for, design, acquire, construct, install, relocate, redevelop, finance, operate or maintain fire protection facilities or services, unless such facilities and services are provided pursuant to an intergovernmental agreement with the Town. The authority to plan for, design, acquire, construct, install, relocate, redevelop or finance fire hydrants and related improvements installed as part of the water system shall not be limited by this provision.

3. Television Relay and Translation Limitation; Mosquito Control, and Other Limitations. Unless such facilities and services are provided pursuant to an intergovernmental agreement with the Town, the Districts shall not be authorized to plan for, design, acquire, construct, install, relocate, redevelop, finance, operate, maintain or provide: (a) any television relay and translation facilities and services, other than for the installation of conduit as a part of a street construction project; (b) any mosquito control facilities and services; (c) any solid waste disposal, collection and transportation facilities and services; and (d) any security, covenant enforcement and design review services.

4. Construction Standards Limitation. The Districts will ensure that the Public Improvements are designed and constructed in accordance with the standards and specifications of the Town and of federal and state governmental entities having proper jurisdiction and of those special districts that qualify as “interested persons” under Section 32-1-204(1), C.R.S., as applicable. The Districts will obtain the Town’s approval of civil engineering plans and will obtain applicable permits for construction and installation of Public Improvements prior to performing such work.

5. Property Acquisition Limitation; Transfer Requirement. The Districts shall not exercise any power of dominant eminent domain against the Town without the prior

written consent of the Town. The Districts shall at no expense to the Town transfer to the Town all rights-of-way, fee interests and easements that the Town determines are necessary for access to and operation and maintenance of the Public Improvements, consistent with the Approved Development Plan and to the extent such interests have not been acquired by the Town through such Development Plan process.

6. Privately Placed Debt Limitation. Prior to the issuance of any privately placed Debt, the Districts shall obtain the certification of an External Financial Advisor substantially as follows:

We are [I am] an External Financial Advisor within the meaning of the Districts' Service Plan.

We [I] certify that (1) the net effective interest rate (calculated as defined in Section 32-1-103(12), C.R.S.) to be borne by the Districts for the [insert the designation of the Debt] does not exceed a market [tax-exempt] [taxable] interest rate, using criteria deemed appropriate by us [me] and based upon our [my] analysis of comparable high yield securities; and (2) the structure of [insert designation of the Debt], including maturities and early redemption provisions, is reasonable considering the financial circumstances of the Districts.

7. Inclusion and Exclusion Limitations. The Districts shall not include within any of their boundaries any property outside the Service Area without the prior written consent of the Town Council. The Districts shall not exclude any property from such District if such exclusion will result, or is reasonably anticipated to result, in detriment to the remaining residents and taxpayers within the District, or to the District's bondholders.

8. Initial Debt Limitation. On or before the effective date of approval of an Approved Development Plan, the Districts shall not: (a) issue any Debt; nor (b) impose a mill levy for the payment of Debt by direct imposition or by transfer of funds from the operating fund to the Debt service funds; nor (c) impose or collect any fees or revenues from any other source for the purpose of repayment of Debt.

9. Total Debt Issuance Limitation. The Districts shall not issue Debt in excess of \$6,600,000 total aggregate principal amount, which limit is a combined, total aggregate amount for all Districts.

10. Monies from Other Governmental Sources. The Districts shall not apply for or accept Conservation Trust Funds, Great Outdoors Colorado Funds, or other funds available from or through governmental or non-profit entities for which the Town is eligible to apply for, except as may be specifically authorized in an intergovernmental agreement with the Town. This Section shall not apply to specific ownership taxes which shall be distributed to and constitute a revenue source for the Districts without any limitation.

11. Consolidation Limitation. No District shall file a request with any Court to consolidate with any other Title 32 district, whether one of Districts or otherwise, without the prior written consent of the Town.

12. Bankruptcy Limitation. All of the limitations contained in this Service Plan, including, but not limited to, those pertaining to the Commercial Maximum Debt Mill Levy, the Residential Maximum Debt Mill Levy, the total Debt issuance limitation, and the Maximum Debt Mill Levy Imposition Term have been established under the authority of the Town to approve a Service Plan with conditions pursuant to Section 32-1-204.5, C.R.S. It is expressly intended that such limitations:

- (a) shall not be subject to set-aside for any reason or by any court of competent jurisdiction, absent a Service Plan Amendment; and
- (b) are, together with all other requirements of Colorado law, included in the “political or governmental powers” reserved to the State under the U.S. Bankruptcy Code (11 U.S.C.) Section 903, and are also included in the “regulatory or electoral approval necessary under applicable nonbankruptcy law” as required for confirmation of a Chapter 9 Bankruptcy Plan under Bankruptcy Code Section 943(b)(6).

Any Debt, issued with a pledge or which results in a pledge, that exceeds the Commercial Maximum Debt Mill Levy, the Residential Maximum Debt Mill Levy, or the Maximum Debt Mill Levy Imposition Term, shall be deemed a material modification of this Service Plan pursuant to Section 32-1-207, C.R.S. and shall not be an authorized issuance of Debt unless and until such material modification has been approved by the Town as part of a Service Plan Amendment.

13. Revenue Bond Limitation. The Districts shall not issue revenue bonds, except as set forth in this Section. Prior to issuing any revenue bonds, the District or Districts proposing to issue such revenue bonds shall submit all relevant details of such issuance to the Town Council, which may elect to treat the issuance of revenue bonds as a material modification of the Service Plan. If the Town Council determines that the issuance of revenue bonds constitutes a material modification of the Service Plan, the Districts shall proceed to amend the Service Plan in accordance with Section 32-1-207, C.R.S. prior to issuing any revenue bonds. Notwithstanding, it is specifically contemplated and authorized hereunder without further Town Council approval for District No. 1 to issue bonds supported all or in part with a mill levy pledge of District No. 2’s property taxes, subject at all times to the restrictions set forth herein, including without limitation that for residential property the Residential Maximum Debt Mill Levy and Maximum Debt Milly Levy Imposition Term shall never be exceeded and for commercial property the Commercial Maximum Debt Mill Levy shall never be exceeded.

14. Service Plan Amendment Requirement. This Service Plan is general in nature and does not include specific detail in some instances because development plans have not been finalized. The Service Plan has been designed with sufficient flexibility to enable the Districts to provide required Public Improvements under evolving circumstances without the

need for numerous amendments. Modification of the general types of services and facilities making up the Public Improvements, and changes in proposed configurations, locations or dimensions of the Public Improvements shall be permitted to accommodate development needs consistent with the then-current Approved Development Plan(s) for the Project, subject to the limitations of this Service Plan and the Intergovernmental Agreement.

The Districts are independent units of local government, separate and distinct from the Town, and their activities are subject to review by the Town only insofar as they may deviate in a material manner from the requirements of the Service Plan, Chapter 10.11 of the Town Code, or the Intergovernmental Agreement. Any District may amend this Service Plan without the permission or consent of the remaining Districts, to the extent that the Service Plan amendment affects only that District initiating the statutory amendment process. However, actions of any District which: (1) violate the limitations set forth in Sections V.A.1-14 above; (2) violate the limitations set forth in Section VI.B-I; (3) constitute a material modification under Town Code section 10.11.060; or (4) constitutes a failure to comply with the Intergovernmental Agreement or other agreement with the Town, which non-compliance has not been waived in writing by the Town, shall be deemed to be a material modification to this Service Plan and the Town shall be entitled to all remedies available under State and local law to enjoin such action(s) of the Districts.

Any Town approval requirements contained in this Service Plan (including, without limitation, any provisions requiring that a change, request, occurrence, act or omission be treated as a Service Plan Amendment or be deemed a “**material modification**” of the Service Plan) shall remain in full force and effect, and, unless otherwise provided by resolution of the Town Council, such Town approval shall continue to be required, notwithstanding any future change in law modifying or repealing any statutory provision concerning service plans, amendments thereof or modifications thereto.

B. Capital Plan.

The Districts shall have authority to provide for the planning, design, acquisition, construction, installation, relocation, redevelopment, maintenance, and financing of the Public Improvements within the boundaries of the Districts, and, to the extent necessary to improve adjacent streets, traffic and safety improvements, drainage and storm sewer improvements and related utilities and connect Public Improvements to existing infrastructure, without the boundaries of the Districts, all to be more specifically defined in an Approved Development Plan. A Capital Plan, including: (1) a comprehensive list of the Public Improvements to be developed by the Districts; (2) an estimate of the cost of the Public Improvements, together with a letter from a Colorado professional registered engineer certifying that such costs are reasonable in the engineer’s opinion and that such estimates were prepared based upon Town construction standards; and (3) a pro forma capital expenditure plan correlating expenditures with development is attached hereto as **Exhibit D**. A Map Depicting Public Improvements is attached hereto as **Exhibit E**. As shown in the Capital Plan, the estimated cost of the Public Improvements which may be planned for, designed, acquired, constructed, installed, relocated, redeveloped, maintained or financed by the Districts is approximately \$7,300,000. Costs of required Public Improvements that cannot be financed by the Districts within the parameters of

this Service Plan and the financial capability of the District are expected to be financed by the developer of the Project.

The Districts shall be permitted to allocate costs between such categories of the Public Improvements as deemed necessary in their discretion.

All of the Public Improvements described herein will be designed in such a way as to assure that the Public Improvements standards will be compatible with those of the Town and shall be in accordance with the requirements of the Approved Development Plan. All descriptions of the Public Improvements to be constructed, and their related costs, are estimates only and are subject to modification as engineering, development plans, economics, the Town's requirements, and construction scheduling may require. Upon approval of this Service Plan, the Districts will continue to develop and refine the Capital Plan and the Map Depicting Public Improvements, as necessary, and prepare for issuance of Debt. All cost estimates will be inflated to then-current dollars at the time of the issuance of Debt and construction. All construction cost estimates contained in **Exhibit D** assume construction to applicable standards and specifications of the Town and state or federal requirements.

C. Multiple District Structure.

It is anticipated that the Districts, collectively, will undertake the financing and construction of the Public Improvements. It is generally anticipated that the Districts will undertake the financing and construction of Public Improvements as development necessitates the same, and that the Districts will share certain Public Improvement costs. The nature of the functions and services to be provided by each District, and the mechanisms by which the Districts will cooperatively fund Public Improvement costs, shall be clarified in an intergovernmental agreement among the Districts. The intergovernmental agreement among the Districts, and all amendments thereto, shall be designed to help assure the orderly development of the Public Improvements and essential services in accordance with the requirements of this Service Plan. Implementation of such intergovernmental agreement is essential to the orderly implementation of this Service Plan. Accordingly, any determination of any Board to set aside said intergovernmental agreement, or any provision thereof or amendment thereto, without the consent of all of the Districts shall be a material modification of the Service Plan. The foregoing intergovernmental agreement and all amendments thereto, as well as all other intergovernmental agreements and amendments thereto proposed between or among the Districts regarding the subject matter of this Service Plan, shall be subject to review and approval by the Town prior to their execution by the Districts.

VI. FINANCIAL PLAN

A. General.

The Districts shall be authorized to provide for the planning, design, acquisition, construction, installation, relocation and/or redevelopment of the Public Improvements from their revenues and by and through the proceeds of Debt to be issued by the Districts. The Financial Plan for the Districts shall be to issue such Debt as the Districts can reasonably pay from revenues derived from the Residential Maximum Debt Mill Levy, the Commercial

Maximum Debt Mill Levy, and other legally available revenues. All bonds and other Debt issued by the Districts may be payable from any and all legally available revenues of the Districts, including general *ad valorem* taxes to be imposed upon all taxable property within the Districts. The Districts will also rely upon various other revenue sources authorized by law, such as interest, specific ownership taxes, advances from the Project developer and grants. No Development Fees are authorized for the Districts, and unless specifically authorized in the Intergovernmental Agreement, the Districts shall not impose or assess any Development Fees or any other fees, rates, tolls, penalties, or charges without first obtaining Town approval of an amendment to this Service Plan, which amendment shall be deemed to be a material modification hereof.

The total Debt that the Districts shall be permitted to issue shall not exceed \$6,600,000 in aggregate principal amount, which is a combined, total aggregate amount for all Districts. Debt is permitted to be issued on a schedule and in such year or years as the issuing District determines shall meet the needs of the Capital Plan referenced above and the progression of the development, subject to compliance with this Service Plan. The \$6,600,000 that the Districts shall be permitted to issue is supported by the Financial Plan prepared by D.A. Davidson & Co., attached hereto as **Exhibit F**, which includes a certification that based upon the assumptions contained therein and its professional opinion, the Districts are expected to retire all Debt referenced in the Financial Plan within the restrictions set forth in the Service Plan, including but not limited to the Residential Maximum Debt Mill Levy, the Commercial Maximum Debt Mill Levy, and the Maximum Debt Mill Levy Imposition Term, as applicable.

In order to address current legal considerations concerning tax exempt debt issued by quasi-governmental entities such as the Districts, it is anticipated that District No. 1 will issue debt to finance the Public Improvements, which debt may be supported by its property taxes, as well as by a pledge of District No. 2's property taxes subject at all times to the restrictions set forth herein, including without limitation that for residential property the Residential Maximum Debt Mill Levy and Maximum Debt Mill Levy Imposition Term shall never be exceeded and for commercial property Commercial Maximum Debt Mill Levy shall never be exceeded.

B. Maximum Voted Interest Rate and Maximum Underwriting Discount.

The interest rate on any Debt is limited to the market rate at the time the Debt is issued. In the event of a default, the proposed maximum interest rate on any Debt is not expected to exceed twelve percent (12%). The proposed maximum underwriting discount will be four percent (4%). Debt, when issued, will comply with all relevant requirements of this Service Plan, State law and Federal law as then applicable to the issuance of public securities.

C. Commercial Maximum Debt Mill Levy.

The “**Commercial Maximum Debt Mill Levy**” shall be the maximum mill levy the Commercial District is permitted to impose upon the taxable property within the Commercial District for payment of Debt and for the administration and operation of the Commercial District, and shall be determined as follows:

1. For the portion of any aggregate Debt which exceeds fifty percent (50%) of the Commercial District's assessed valuation, the Commercial Maximum Debt Mill Levy for such portion of Debt shall be fifty (50) mills less the number of mills necessary to pay unlimited mill levy Debt described in Section VI.C.2 below; provided that if, on or after January 1, 2000, there are or were changes in the ratio of actual valuation to assessed valuation, pursuant to Article X, Section 3(1)(b) of the Colorado Constitution and legislation implementing such Section, then the mill levy limitation applicable to such Debt may be increased or decreased to reflect such change, such mill levy increases or decreases to be determined by the Board in good faith (such determination to be binding and final) so that to the extent possible, the actual tax revenues generated by the mill levy, as adjusted for changes occurring after January 1, 2000, are neither diminished nor enhanced as a result of such changes (a "**Gallagher adjustment**"). Except for such a permitted Gallagher adjustment, the Commercial District's mill levy shall not exceed the Commercial Maximum Debt Mill Levy. If the Commercial District otherwise proposes to adjust its mill levy above the Commercial Maximum Debt Mill Levy for the purpose of offsetting any constitutionally or legislatively mandated credit, cut, abatement or change in the method of calculating assessed valuation, the Commercial District shall first submit all relevant details of such proposed adjustment to the Town Administrator, who may approve such proposed adjustment in writing or refer the proposal to the Town Council, which may elect to treat the proposed mill levy adjustment as a material modification of the Service Plan. If the Town Council determines that such adjustment constitutes a material modification of the Service Plan, the Commercial District shall proceed to amend the Service Plan in accordance with Section 32-1-207, C.R.S. The Commercial District shall obtain written approval of the Town Administrator or of a Service Plan amendment prior to any such mill levy adjustment.

2. For the portion of any aggregate Debt which is equal to or less than fifty percent (50%) of the Commercial District's assessed valuation, either on the date of issuance or at any time thereafter, the mill levy to be imposed to repay such portion of Debt shall not be subject to the Commercial Maximum Debt Mill Levy and, as a result, the mill levy may be such amount as is necessary to pay the Debt service on such Debt, without limitation of rate.

3. For purposes of the foregoing, once Debt has been determined to be within Section VI.C.2 above, so that the Commercial District is entitled to pledge to its payment an unlimited *ad valorem* mill levy, the Commercial District may provide that such Debt shall remain secured by such unlimited mill levy, notwithstanding any subsequent change in the Commercial District's Debt to assessed ratio. All Debt issued by the Commercial District must be issued in compliance with the requirements of Section 32-1-1101, C.R.S., and all other requirements of State law.

D. Residential Maximum Debt Mill Levy.

The "**Residential Maximum Debt Mill Levy**" shall be the maximum mill levy a Residential District is permitted to impose upon the taxable property within such Residential District for payment of Debt and for administration and operation of the Residential District, and shall be determined as follows:

1. For the portion of any aggregate Debt which exceeds fifty percent (50%) of the Residential District's assessed valuation, the Residential Maximum Debt Mill Levy for

such portion of Debt shall be thirty-five (35) mills less the number of mills necessary to pay unlimited mill levy Debt described in Section VI.D.2 below; provided that if, on or after January 1, 2000, there are or were changes in the ratio of actual valuation to assessed valuation, pursuant to Article X, Section 3(1)(b) of the Colorado Constitution and legislation implementing such Section, then the mill levy limitation applicable to such Debt may be increased or decreased to offset such change, such mill levy increases or decreases to be determined by the Board in good faith (such determination to be binding and final) so that to the extent possible, the actual tax revenues generated by the mill levy are neither diminished nor enhanced as a result of such changes (a “**Gallagher adjustment**”). As of the date of this Service Plan, the Gallagher adjustment allows for a Residential Maximum Debt Mill Levy of 42.827 mills. Except for such a permitted Gallagher adjustment, the Residential District’s mill levy for the payment of Debt and for administration and operation of the Residential District shall not exceed the Residential Maximum Debt Mill Levy. If the Residential District otherwise proposes to adjust such mill levy above the Residential Maximum Debt Mill Levy for the purpose of offsetting any constitutionally or legislatively mandated credit, cut, abatement or change in the method of calculating assessed valuation, the Residential District shall first submit all relevant details of such proposed adjustment to the Town Administrator, who may approve such proposed adjustment in writing or refer the proposal to the Town Council, which may elect to treat the proposed mill levy adjustment as a material modification of the Service Plan. If the Town Council determines that such adjustment constitutes a material modification of the Service Plan, the Residential District shall proceed to amend the Service Plan in accordance with Section 32-1-207, C.R.S. The Residential District shall obtain written approval of the Town Administrator or of a Service Plan amendment prior to any such mill levy adjustment.

2. For the portion of any aggregate Debt which is equal to or less than fifty percent (50%) of the Residential District’s assessed valuation, either on the date of issuance or at any time thereafter, the mill levy to be imposed to repay such portion of Debt shall not be subject to the Residential Maximum Debt Mill Levy and, as a result, the mill levy may be such amount as is necessary to pay the Debt service on such Debt, without limitation of rate.

3. For purposes of the foregoing, once Debt has been determined to be within Section VI.D.2 above, so that the Residential District is entitled to pledge to its payment an unlimited *ad valorem* mill levy, such Residential District may provide that such Debt shall remain secured by such unlimited mill levy, notwithstanding any subsequent change in such Residential District’s Debt to assessed ratio. All Debt issued by the Residential District must be issued in compliance with the requirements of Section 32-1-1101, C.R.S., and all other requirements of State law.

To the extent that the Residential District is composed of or subsequently organized into one or more subdistricts as permitted under Section 32-1-1101, C.R.S., the term “Residential District” as used in this Section shall be deemed to refer to the Residential District and to each such subdistrict separately, so that each of the subdistricts shall be treated as a separate, independent district for purposes of the application of this definition.

E. Maximum Debt Mill Levy Imposition Term.

The Residential District shall not impose a levy for repayment of any and all Debt (or use the proceeds of any mill levy for repayment of Debt) on any single property developed for residential uses which exceeds forty (40) years after the year of the initial imposition of such mill levy unless a majority of the Board of Directors of the Residential District imposing the mill levy are residents of such Residential District and have voted in favor of a refunding of a part or all of the Debt and such refunding will result in a net present value savings as set forth in Section 11-56-101, C.R.S. et seq.

F. Debt Repayment Sources.

Each of the Districts may impose a mill levy on taxable property within its boundaries as a primary source of revenue for repayment of debt service and for administration and operation of each District. In no event shall the mill levy in the Commercial District exceed the Commercial Maximum Debt Mill Levy, and in no event shall the mill levy in the Residential District exceed the Residential Maximum Debt Mill Levy or the Maximum Debt Mill Levy Imposition Term.

No Development Fees are authorized for the Districts, and unless specifically authorized in the Intergovernmental Agreement, the Districts shall not impose or assess any Development Fees or any other fees, rates, tolls, penalties, or charges without first obtaining Town approval of an amendment to this Service Plan, which amendment shall be deemed to be a material modification hereof.

G. Debt Instrument Disclosure Requirement.

In the text of each Bond and any other instrument representing and constituting Debt, the District shall set forth a statement in substantially the following form:

By acceptance of this instrument, the owner of this Bond agrees and consents to all of the limitations in respect of the payment of the principal of and interest on this Bond contained herein, in the resolution of the District authorizing the issuance of this Bond and in the Service Plan for creation of the Districts.

A substantially similar statement describing the limitations in respect of the payment of the principal of and interest on Debt set forth in this Service Plan shall be included in any document used for the offering of the Debt for sale to persons, including, but not limited to, a developer of property within the boundaries of the Districts. If no offering documents are used, then the District shall deliver the statement to any prospective purchaser of such Debt. The Town may by written notice to the District require modifications to the form of disclosures statement.

H. Security for Debt.

The Districts shall not pledge any revenue, property or other assets of the Town as security for any District indebtedness. Approval of this Service Plan shall not be construed as a

guarantee by the Town of payment of any of the Districts' obligations; nor shall anything in the Service Plan be construed so as to create any responsibility or liability on the part of the Town in the event of default by the Districts in the payment of any such obligation.

I. TABOR Compliance.

The Districts will comply with the provisions of TABOR. In the discretion of the Board, the Districts may set up enterprises or nonprofit entities to manage, fund, construct and operate facilities, services and programs. To the extent allowed by law, any entity created by the Districts will remain under the control of the Districts' Boards. The activities of such enterprises and entities shall comply with the provisions of this Service Plan.

J. Districts' Administrative and Operating Costs.

The estimated cost of engineering services, legal services and administrative services, together with the estimated costs of the Districts' organization and initial operations, are anticipated to be \$100,000, which will be eligible for reimbursement from Debt proceeds.

In addition to the capital costs of the Public Improvements, the Districts will require operating funds for administration and to plan and cause the Public Improvements to be constructed and maintained, if such maintenance is addressed in the Intergovernmental Agreement. The first year's operating budget is estimated to be \$35,000, which is anticipated to be derived from property taxes and other revenues.

For these Districts, no operation or maintenance functions and no separate mill levy therefor, are authorized by this Service Plan.

K. Subdistricts.

Any District may organize subdistricts or areas as allowed by Section 32-1-1101(1)(f), C.R.S., provided, however, that without the approval of the Town, any such subdistrict(s) or area(s) shall be subject all limitations on debt and other provisions of the Service Plan. In accordance with Section 32-1-1101(1)(f)(I), C.R.S., the District shall notify the Town prior to establishing any such subdistrict(s) or area(s), and shall provide the Town with details regarding the purpose, location, and relationship of the subdistrict(s) or area(s). The Town Council may elect to treat the organization of any such subdistrict(s) or area(s) as a material modification of the Service Plan.

VII. ANNUAL REPORT

A. General. In accordance with Town Code section 10.11.040, each of the Districts shall file an annual report with the Town Clerk not later than September 1 of each calendar year, starting the year following formation, which annual report shall reflect activity and financial events of the District through the preceding December 31 (the “**report year**”). The Town Council reserves the right, pursuant to Section 32-1-207(3)(c), C.R.S., to request annual reports from the District beyond five years after the District’s organization.

B. Reporting of Significant Events

The annual report shall include the following:

1. A narrative summary of the progress of the District in implementing its Service Plan for the report year;
2. Except when exemption from audit has been granted for the report year under the Local Government Audit Law, the audited financial statements of the District for the report year including a statement of financial condition (i.e., balance sheet) as of December 31 of the report year and the statement of operations (i.e., revenues and expenditures) for the report year;
3. Unless disclosed within a separate schedule to the financial statements, a summary of the capital expenditures incurred by the District in development of Public Improvements in the report year, as well as any Public Improvements proposed to be undertaken in the five (5) years following the report year;
4. Unless disclosed within a separate schedule to the financial statements, a summary of the financial obligations of the District at the end of the report year, including the amount of outstanding Debt, the amount and terms of any new Debt issued in the report year, the amount of payment or retirement of existing Debt of the District in the report year, the total assessed valuation of all taxable properties within the District as of January 1 of the report year and the current mill levy of the District pledged to Debt retirement in the report year;
5. The District’s budget for the calendar year in which the annual report is submitted;
6. A summary of the residential and commercial development in the District for the report year;
7. A summary of all fees, charges and assessments imposed by the District as of January 1 of the report year;
8. Certification of the Board that no action, event or condition enumerated in Town Code section 10.11.060 has occurred in the report year, or certification that such event has occurred but that an amendment to the Service Plan that allows such event has been approved by Town Council;

9. The name, business address and telephone number of each member of the Board and its chief administrative officer and general counsel, together with the date, place and time of the regular meetings of the Board; and

10. Certification from the External Financial Advisor that the District is in compliance with all provisions of the Service Plan.

11. A copy of the most recent notice issued by the District, pursuant to Section 32-1-809, C.R.S.

VIII. DISSOLUTION

Upon an independent determination of the Town Council that the purposes for which the Districts were created have been accomplished, the Districts agree to file petitions in the District Court for and in Douglas County, Colorado, for dissolution, pursuant to the applicable State statutes. In no event shall dissolution occur until the Districts have provided for the payment or discharge of all of their outstanding indebtedness and other financial obligations as required pursuant to State statutes.

IX. DISCLOSURE TO PURCHASERS OF RESIDENTIAL PROPERTY

The Town wants residential buyers to be aware of the additional tax burden to be imposed. The Town mandates early written and recorded notice of the total (overlapping) tax burden, including the Residential Maximum Debt Mill Levy, the Commercial Maximum Debt Mill Levy, and the Maximum Debt Mill Levy Imposition Term, as applicable. The Town will review the type and timing of the disclosure, which the proponents of the Districts are proposing. The notice shall be recorded against all property within the Districts prior to the Districts' certification of the formation of the District to the Colorado Division of Local Government as required by Section 32-1-306, C.R.S.

There is attached hereto as **Exhibit G** the Project Developer's Indemnification Letter, which is submitted to the Town by the Developer as part of this Service Plan. There is also attached hereto as **Exhibit G** the form of a District Indemnification Letter. The District shall approve and execute the Indemnification Letter at its first Board meeting after its organizational election, in the same form as the Indemnification Letter set forth in **Exhibit G** and shall promptly deliver an executed original to the Town.

X. INTERGOVERNMENTAL AGREEMENT

The form of the intergovernmental agreement required by Town Code section 10.11.140(a), relating to the limitations imposed on the Districts' activities, is attached hereto as **Exhibit H**. The Districts shall approve and execute the Intergovernmental Agreement at their first Board meeting following their organizational election, in the same form as the Intergovernmental Agreement approved by the Town Council, and shall promptly deliver an executed original to the Town. Failure of the Districts to execute the Intergovernmental Agreement as required herein shall constitute a material modification and shall require a Service Plan Amendment. The Town Council shall approve the Intergovernmental Agreement at the public hearing approving the Service Plan.

As discussed above, the Districts will also enter into an intergovernmental agreement regarding the functions and services to be provided by each District, and the mechanisms to be used by the Districts for the sharing of costs of Public Improvements. Such intergovernmental agreement and all amendments thereto, as well as all other intergovernmental agreements and amendments thereto proposed between or among the Districts regarding the subject matter of this Service Plan, shall be subject to review and approval by the Town prior to their execution by the Districts. The Districts shall also deliver promptly upon the Districts' execution fully executed and complete copies of all amendments to such intergovernmental agreement, and of all other intergovernmental agreements and amendments thereto between or among the Districts regarding the subject matter of this Service Plan.

No intergovernmental agreements other than the Town Intergovernmental Agreement and the Districts' intergovernmental agreements are anticipated. Except for such Intergovernmental Agreement with the Town, any intergovernmental agreement proposed regarding the subject matter of this Service Plan shall be subject to review and approval by the Town prior to its execution by a District.

XI. NON-COMPLIANCE WITH SERVICE PLAN

In the event it is determined that any District has undertaken any act or omission which violates the Service Plan or constitutes a material departure from the Service Plan, the Town may impose any of the sanctions set forth in Section 10.11.220 of the Town Code, including but not to affirmative injunctive relief to require the Districts to act in accordance with the provisions of this Service Plan. To the extent permitted by law, the District hereby waives the provisions of Section 32-1-207(3)(b), C.R.S. and agrees it will not rely on such provisions as a bar to the enforcement by the Town of any provisions of this Service Plan.

XII. CONCLUSION

It is submitted that this Service Plan for the Districts, as required by Section 32-1-203(2), C.R.S., and Section 10.11.180 of the Town Code, establishes that:

1. There is sufficient existing and projected need for organized service in the area to be serviced by the Districts;
2. The existing service in the area to be served by the Districts is inadequate for present and projected needs;
3. The Districts are capable of providing economical and sufficient service to the area within their proposed boundaries; and
4. The area to be included in the Districts does have, and will have, the financial ability to discharge the proposed indebtedness on a reasonable basis.
5. Adequate service is not, and will not be, available to the area through the Town or County or other existing municipal or quasi-municipal corporations, including existing special districts, within a reasonable time and on a comparable basis.

6. The facility and service standards of the Districts are compatible with the facility and service standards of the Town.
7. The proposal is in substantial compliance the Town's Master Plan.
8. The proposal is in compliance with any duly adopted Town, regional or state long-range water quality management plan for the area.
9. The creation of the Districts is in the best interests of the area proposed to be served.
10. The creation of the Districts is in the best interests of the residents and future residents of the area proposed to be served.
11. The proposal is in substantial compliance with Chapter 10.11 of the Town Code.
12. The proposal will not foster urban development that is remote or incapable of being integrated with existing urban areas, and will not place a burden on the Town or adjacent jurisdictions to provide urban services to residents of the Districts.

Proposed Reata Ridge Village Metropolitan District Nos. 1 and 2
Reata Ridge Realty Partners LLC
8231 East Prentice Avenue
Greenwood Village, CO 80111

RE: Proposed Reata Ridge Village Metropolitan District Nos. 1 and 2

We have analyzed the bonding capacity for the proposed Reata Ridge Village Metropolitan District Nos. 1 and 2 ("the Districts"). The analysis presented summarizes and presents information provided by Reata Ridge Realty Partners LLC ("the Developer") and does not include independently verifying the accuracy of the information or assumptions.

Residential Plan Assumptions

The following assumptions have been provided by the Developer and form the basis of the residential analysis.

1. The development is comprised of 91 residential units of which all are single family homes on 60 foot lots. The single family homes are projected to be completed at a pace of 32 in 2017, 36 in 2018, and 23 in 2019. The base year price is modeled at \$572,000 for the single family homes on the 60 foot lots. The base year price is modeled with a 2% annual inflation rate.
2. The residential debt service mill levy target is 42.827 mills (with a cap of 42.827 mills) less an operations carve out of \$35,000 per year beginning in tax collection year 2019. Operations will be funded off the revenues of both the commercial and residential mill levies and will inflate 1% annually, starting in 2018.

Commercial Plan Assumptions

The following assumptions have been provided by the Developer and form the basis of the commercial analysis.

1. The development is comprised of 59,000 square feet of commercial property of which 28,000 is allocated towards the retail lots and 31,000 towards the bank/office lots. The retail and bank/office lots are projected to be completed in 2017. The base year price is modeled at \$250 per square foot for the retail lots and \$120 per square foot for the bank/office lots. The base year price is modeled with a 2% annual inflation rate.
3. The commercial debt service mill levy target is 50.00 mills (with a cap of 50.00 mills) less an operations carve out of \$35,000 per year beginning in tax collection year 2019. Operations will be funded off the revenues of both the commercial and residential mill levies and will inflate 1% annually, starting in 2018.

Estimate of Potential Bonding Capacity

1. The Districts are modeled to issue senior bonds in December, 2019 with a par of \$5,190,000.00. An interest rate of 5.0% was modeled based upon 30-year debt. This assumes the Residential District issues bonds backed by its own and the Commercial District's revenue. For purposes of this memo the Residential District is referred to as the Issuing District. At issuance, it is projected that the Issuing District will fund \$129,290.61 for Capitalized Interest, \$394,750.00 for a Debt Service Reserve Fund and \$207,600.00 in costs of issuance with bond proceeds. The remaining \$4,458,359.39 is projected to reimburse the Developer for eligible expenses.
2. The Senior Bond Surplus Fund is sized to \$519,000.00 (reflecting 10% of the projected par of the bonds).
3. Specific Ownership Tax revenues have been calculated based on applying a factor of 6.0% to annual property tax revenues (on both the Debt Service and Operations levies).
4. It is projected that 98% of property taxes levied will be collected and available to the Issuing District (for both the Debt Service and Operations levies).
5. It is projected that there will be a 2% biennial inflation rate on assessments. The bonding capacity could be higher if the rate of assessment inflation is greater or conversely lower if the inflation rate is below 2%.

Based upon the assumptions contained therein and D.A. Davidson's professional opinion as underwriter, the Issuing District is expected to retire all Debt referenced in the Financial Plan within the restrictions set forth in the Service Plan, including, but not limited to, the Residential Maximum Debt Mill Levy, the Commercial Maximum Debt Mill Levy, and the Maximum Debt Mill Levy Imposition Term, as applicable.

The assumptions disclosed in the Financial Plan are those of the Developer and have not been independently reviewed by D.A. Davidson. Those assumptions identified are believed to be the significant factors in determining financial feasibility; however, they are likely not to be all-inclusive. There will usually be differences between forecasted and actual results, because events and circumstances frequently do not occur as projected, and those differences may be material. Key assumptions — like those relating to market values of real property improvements and the build out schedule of such property — are particularly sensitive in terms of the timing necessary to create the tax base for the Issuing District. A small variation in these variables, and to their timing, can have a large effect on the forecasted results. There is a high probability that the forecasted results will differ from realized future tax base factors and such variations can be material. Additionally, other key assumptions relating to inflation, assessment ratios, interest rates, and infrastructure, administrative, and operating costs may, and likely will, vary from those projected.

Because D.A. Davidson has not independently evaluated or reviewed the assumptions that the financial model is based upon, we do not vouch for the achievability (and disclaim any opinion) of the information provided. Furthermore, because of the inherent nature of future events, which are subject to change and variation as events and circumstances change, the actual results may vary materially from the results presented here. D.A. Davidson has no responsibility or obligation to update this information or this financial model for events occurring after the date of this report.

Respectfully submitted,
